

**2 x 6 BOARDS | CLADDING STRIPS**

Sustainable strength,  
long-lasting elegance

TRUNORTHDECKING.COM

Clubhouse's® versatile 2 x 6 Boards and Cladding Strips share the same super-dense, water-resistant structure and single-extrusion process as our other deck boards, ensuring durability and beauty for years.

Advanced color technology

Patented wood grain embossing

Stays up to 30% cooler

Extreme impact resistance

Engineered for strength

Low moisture absorption

Best slip resistance

Clubhouse® Cladding Strips are 1½" x ¾" and available in 12' lengths.

## CLADDING STRIPS

The Cladding Strips are an excellent choice for finishing touches, offering a modern look with a beautiful brushed finish that complements any design.

- Ideal for finishing your deck with trim or general cladding purposes
- Enhance your dock piles to seamlessly complement your 2x6 Board
- Perfectly paired with our matching fascia board

Clubhouse® 2 x 6 Boards are 5½" x 1½" and available in 8' or 10' lengths.

## 2 X 6 BOARDS

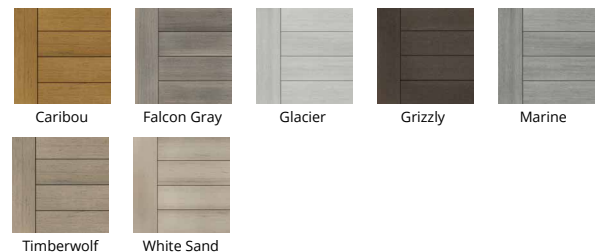

Our 2 x 6 Boards are engineered for strength and safety with our exclusive Korelite™ and anti-slip technology and are ideal for more heavy duty projects.

- Perfect for stair treads, park & forest boardwalks, commercial projects and surfaces of high-traffic areas
- Construct a super strong deck with 2x6 Board
- Great for marina settings to construct the best dock
